111 Free Tools to Help You Through the Coronavirus Pandemic

These free tools can help your organization, team and family during this confusing and dangerous time.

Opinions expressed by *Entrepreneur* contributors are their own.

There are more than 10,000 coronavirus cases and more than 150 deaths in the U.S., according to the CDC. The stock market has taken a hit. Businesses are losing customers, and workers are losing jobs. It has become frightening, frustrating and even maddening.

In response to the pandemic, Zoom CEO Eric Yuan recently reminded us that we can all help each other in our own ways. He has provided K-12 educators with free access to the videoconferencing platform so students can continue learning.

Inspired, I shared an idea with Jason Feifer, editor in chief at *Entrepreneur*: a simple, organized list of free product and service offerings from all types of companies. Access to these powerful tools can help organizations, teams and families.

He responded quickly. “I like that. Maybe it starts as a post on Entrepreneur.com?”

Boom. Here we go:
