

12 Abstract Textures for Access All Areas Members

Access All Areas members have a vibrant collection of abstract textures to download this week, courtesy of Chroma Supply. This sample pack has been put together from 12 different Chroma Supply products, providing a variety of graphic styles for you to use in your projects. These experimental textures are like nothing you've seen before with unique shapes and wild colours! They look incredible as backgrounds for abstract poster designs, album covers or packaging designs, and at a huge 5000px/300ppi resolution, they're perfect for the largest of print designs.

Chroma Supply is a creator of high quality abstract design resources for graphic designers and creatives. Founded by Jim LePage, Chroma Supply's work has been used on many projects like book covers, snowboards, branding materials, album art and more. Every pack in the Chroma Supply store has a unique visual style, some are made using warped 3D shapes, while others are constructed by hand with real paints and liquids.
