28 Hand-Drawn Burst Elements for Access All Areas Members

Access All Areas members have a brilliant set of vector graphics to download this week, courtesy of Simon from The Shop. These hand-drawn burst illustrations have been carefully traced with a Pentel Sign Pen and digitised into vector graphics. There's a variety of elements, including circular lines, geometric shapes, and stars. They are useful assets to add to your artwork, perhaps as backgrounds to a vintage-style logo, or abstract elements as part of a wider illustration piece.

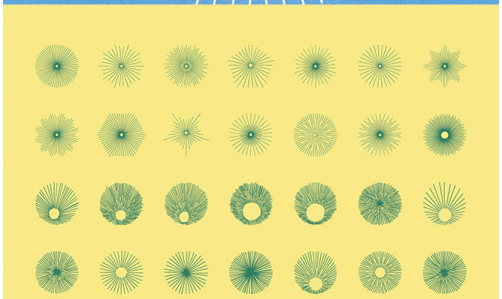

Simon's The Shop is the place to go if you're in need of dirty or grainy resources to grunge up your designs. His store contains a variety of resources, including unique assets you won't find anywhere else! Simon not only creates these fantastic resources, he often shows you what can be done with them too! Follow him on Instagram to see his latest work and sign up to The Shop Newsletter to receive a FREE download of over 2.7GB worth of textures and vector graphics, alongside sneak peeks, deals information, and other general updates from the factory floor.
