A leaked Google ‘Switch to Pixel’ ad highlights Pixel 8 AI features

The ad kicks off highlighting the process for transferring data to a Pixel 8, but spends most of its time on the AI features of the phone — some new, like Best Take, and some old, like Magic Eraser:

9to5Google also points to a leak from Kamila Wojciechowska, who posted apparent marketing materials showing updated first-party silicone Pixel 8 and Pixel 8 Pro cases. Wojciechowska says the Pixel 8 cases will come in Rose, Mint, Charcoal, and Hazel colors, while the Pixel 8 Pro cases will get Bay, Charcoal, Mint, and Porcelain. They look a lot like last year’s cases.
