

A-SAFE

Visual Designer / Full Time / Paid

Elland West Yorkshire UK

<http://www.asafe.com>

A-SAFE is assembling a world class innovation and development team whose purpose is to find unresolved user pains together with disruptive opportunities and develop innovative product, service and business model solutions.

Role Details

We are looking for a Visual Designer that will report to the Head of Design and be a member of the Innovation & Development Design Team. You will be responsible for creating infographics, artwork and layouts for a wide variety of products, service designs and research projects.

As a Visual Designer you will design icons, logos, infographics as well as user-centred interaction models and screen mock-ups. You will establish the look and feel for various early stage opportunity investigations whilst collaborating with the wider team to help solve complex issues like interaction models and data visualisation.

Whilst experience is important to us, we won't discount candidates with minimal hands-on experience – passion and creativity are far more important to us.

A strong eye for detail and comfortable with complex data sets you will prepare assets for early stage project validation using the Adobe Creative Suite.

If you are interested in applying for this position then please send your CV, a short cover letter and 3 samples of recent work demonstrating your suitability for the role.

Skill/Attributes Required

Design logos, icons and infographics.

Design user-centered interaction models and screen mockups.

Establish the look and feel for various early stage opportunity investigations.

Closely collaborate with the Design Team to help solve complex issues like interaction models and data visualisation.

Create and organise design assets.

Source imagery.

Juggle multiple projects whilst managing timelines and stakeholder expectations.

Present your findings to our wider team and company.

Where relevant, upskill the company on your approaches and methods.
