Age Studio: UI/UX/web designer

UI/UX/web designer / Freelance / Paid
Remote! US

Http://Age.studio

Remote freelancer needed! Looking for a designer to make beautiful ecommerce websites starting from atomic style guide to full fledged designs.

Role Details

As an expert Ecommerce developer I’ve had the opportunity to work with top brands to build out their Ecommerce websites. I’m now looking to expand with a designer to offer clients the full package. This will hopefully be an ongoing relationship where we continue to not only design for specific clients but build out sellable themes.

Skill/Attributes Required

UI, UX, web design, e-commerce, Shopify
