Alienware 17 gaming laptop bundle includes a free G-Sync monitor

The best deal that we've seen today is on the 17.3-inch Alienware 17 R5 gaming laptop. It's currently $2,999 from Dell, but . Additionally, buyers will get a 24.5-inch Alienware AW2518H G-Sync gaming monitor and an Alienware mechanical keyboard for free with purchase. Other retailers charge around $450 for this monitor by itself, so the savings are great here.

The laptop features a 1440p G-Sync display with a 120Hz refresh rate, an 8th Gen Intel Core i9 processor, 32GB of DDR4 RAM, 256GB of solid-state storage and 1TB of slower hard drive storage, and an Nvidia GeForce GTX 1080 graphics card. It's more than capable of running most games on their highest settings, and its fast-refreshing display will look good on the go. But when you need to plug it in at home, the 24.5-inch G-Sync monitor that's included in this bundle will be the better option with its 240Hz refresh rate and 1ms response time.
