Looking to take full advantage of your 4K television, but your current streaming stick doesn’t have the right features? Through September 13th, you can grab an **Amazon Fire TV Stick 4K** from Woot for just $16.09 when you use the coupon code **FIRE30** at checkout. With support for Wi-Fi 6 and 2GB of memory, it’s fast enough for streaming movies or playing games with Xbox Cloud Gaming or Nvidia GeForce Now. While this is the 2023 model, it’s functionally identical (and also has the same specs) to the current Fire TV Stick 4K Plus that costs considerably more. It received a name change in late 2025 to differentiate it from the more basic 4K Select model.
