Design Internship / Internship / Paid
New York New York US

http://barrelny.com/

This is a paid 12-week full-time program. As a design intern, you will work alongside our team members and build experience on projects like content creation for social campaigns, website redesigns, and email marketing campaigns.

Role Details

We are looking for a Design Intern to join our Design team. This is a paid 12-week full-time program. As a design intern, you will work alongside our team members and build experience on projects like content creation for social campaigns, website redesigns, and email marketing campaigns. You will receive guidance and feedback along the way and also have various opportunities to contribute during creative brainstorming sessions. You are not required to be on-site for this internship as we are a remote-first team with members of the team located around the world.

Skill/Attributes Required

– Experience: Previous design internship experience is a plus. Good eye for layout, color and typography. Has a good understanding of web design principles.
– Creativity: Has the ability to work within an existing design system and also contribute fresh ideas and new approaches/insight to challenges.
– Positive Attitude: Enthusiastic and able to contribute at any given stage throughout the process. Actively takes the lead on a given task and can pitch in wherever help is needed.
– Flexibility: Eager and open to learning new software and trying new design techniques. Shows initiative to understand

new processes.
– Communication: Excellent written and verbal communication skills. Able to confidently express ideas and also knows when to listen.
– Proactive: Independently schedules design reviews and actively participates when relevant in internal and client-facing meetings.
– Skills: Comfortable working in the Adobe Suite. Working knowledge of HTML/CSS preferred but not required (our designers are not expected to build websites).
– Growth: Consistently seeks out answers to questions and initiates independent research to overcome challenges. Always goes the extra mile to educate self when working in new spaces.
– Time Management: Excellent organizational and time management skills.
