Black and White Lightroom Presets for Access All Areas Members

Access All Areas members have a useful collection of Lightroom Presets to download this week, courtesy of Hydrozi. These Black and White presets are designed to enhance the mood and elegance of your photographs by converting them into dramatic monochrome images. The collection contains an array of styles, including grainy effects, vignettes, HDR styles, low contrast, high contrast, film and magazine looks, giving you endless options to suit whatever the subject of your shot. Apply the effect with a single click, then tweak the individual settings if necessary to customise the result. 49 different black and white effects are included for Lightroom Desktop, Lightroom Mobile, and Camera Raw.

Explore the finest Desktop & Mobile Lightroom Presets exclusively developed by Hydrozi’s team of pro photographers. The Hydrozi shop is filled with Lightroom Preset packs that generate a range of photo effects. Be sure to check out their huge Mega Bundle in particular, which includes EVERYTHING in their shop at a discounted price, giving you immediate access to 15 preset packs containing 2000+ individual photo effects!
