

Black Panther is coming to Marvel's Avengers this August

Previously announced for *Marvel's Avengers*, today's Square Enix E3 Showcase gave a first proper look at Black Panther who joins the superhero roster in a brand new expansion, *War For Wakanda*.

A new cinematic trailer introduces the King of Wakanda himself – although his face is not shown clearly until he puts on his Black Panther mask. He will be defending Wakanda from Klaw, who has infiltrated Wakanda in order to steal Vibranium for his own plans.

The trailer page indicates that *War For Wakanda* will release this August. The Black Panther expansion will be free to players who already own *Marvel's Avengers* on PC, PS5, PS4, Xbox Series X/S, and Xbox One. The expansion had supposedly been planned for release earlier but was delayed due to the sad and sudden passing of Chadwick Boseman, who played the superhero in the Marvel film.

Elsewhere in Marvel, Square Enix also announced today that

Eidos Montreal is making a *Guardians of the Galaxy* game, slated to launch this October.
