

de_Frost* #59 Webinar: Redefining Development with Nectar Efkarpidis

23 July 2020

de_Frost* #59 Redefining Development with Nectar Efkarpidis is the latest live webinar in the ongoing events series run by the team at Frost*Collective.

Join Vince, Maria and Nectar as they talk about their shared passion for storytelling, the importance of making places that matter and what the communities of the future might look and

feel like.

“Good design moves us. It connects our body to our brain and links us to other people. It allows us to inhabit space and make it our own.”—Nectar Efkarpidis

Nectar isn't your typical property developer. Captivated by storytelling, he blurs the lines between who we are, how we work and the spaces we inhabit, seeing buildings and developments as vessels for “ongoing cultural creation, pluralism and life force”.

Join the webinar on Thursday 23 July 2020, 6:00pm AEST by registering below.
