Discord Introduces Server Subscriptions in the US

Following a testing period, Discord rolled out server subscriptions for all servers whose owners are in the U.S. This feature allows servers to offer premium content and features to members who pay for a subscription.

Subscriptions can range in price from $2.99 to $199.99 per month, and server owners will receive 90% of the money they earn. Servers can offer multiple subscription tiers, with each tier giving subscribers access to a different set of benefits.
