DIY RISO Beginner’s Course

16 February 2018
The Partisan Collective, 19 Cheetham Hill Road, M4 4FY
Manchester

Join Team Trident Press at Manchester’s co-operative arts and social space, The Partisan Collective, for an introduction to Riso Printing—the simple yet beautiful printing technique that we are sure you’re familiar with!

This monthly RISO Beginner’s Course will teach you the basics of risography and how to use it right. You will use the RISO at Partisan to explore the machine and understand how to make

use of this unique printing method for DIY projects like zines, flyers and posters. Each participant will create their own two colour A3 print or A6 size zine (8 pages).

Participants can bring along their own creative material such as pens and collage bits, but Trident will provide plenty for everyone anyway. At the end of the workshop you'll be able to take away up to 30 copies of your design and a little RISO guide booklet to refresh your memory next time you're using the DIY RISO at Partisan.

Read more about the workshop and check out the different ticket prices (it's half price for students!), here.
