Facemoji New York Design Challenge

Facemoji is hosting a free all day graphic design competition that will give attendees great hands-on designer experience and plenty of networking opportunities. Plus, there will be tons of fun, collaborating, and prizes!

Facemoji is challenging designers to create inspiring new designs for their emoji keyboard collection in 6 hours. Utilize your favorite software/tool to create your design. Come with a design in mind or choose from Facemoji’s “secret” categories onsite.

Not only will you get to build your portfolio, but you will be compensated for your time ($100) and of course keep the rights to your work. Facemoji is also interested in purchasing competition designs and hiring freelancers for future projects. Added bonus—the grand prize is $5K!
