Fathom3: Graphic / Visual Designer

Graphic / Visual Designer / Full Time / Paid
Elland West Yorkshire UK

http://www.fathom3.com

Fathom3 is an innovation & development company focused on developing products, services and systems that save lives. We are looking for a Graphic / Visual Designer to help on a wide range of projects, from data visualisation and UI through to branding and prototyping.

Role Details

Fathom3 is assembling a world class innovation and development team whose purpose is to develop products, services and systems that save lives.

From our headquarters in West Yorkshire we are revolutionising workplace safety by developing mechanical, electronic and software products and need a Visual Designer to help take us to the next stage of our innovation strategy.

As a member of the team, you will be responsible for creating infographics, artwork, branding concepts and layouts for a wide variety of products, service designs and research projects.

How You Can Help Us

Turn complex research / data into meaningful assets.
Design UI concepts.
Establish the look and feel of departmental documents.
Provide visual design support to a variety of projects.
Create and organise design assets (including templates).
Deliver both print and digital assets.

Skill/Attributes Required

Your Skills:
Adobe
Illustration
Data Visualisation / Infographics
Branding

Your Character:
Passionate
Creative
