

GameStop is discounting video games and accessories for one day only

If you buy something from a Verge link, Vox Media may earn a commission. See our ethics statement.

This story is part of a group of stories called

verge deals

Only the best deals on Verge-approved gadgets get the Verge Deals stamp of approval, so if you're looking for a deal on your next gadget or gift from major retailers like Amazon, Walmart, Best Buy, Target, and more, this is the place to be.

GameStop is hosting several deals on video games and gaming accessories like controllers and headsets that last until the end of the day. The discounts apply both in stores around the US that have reopened, as well as online. While the Steam summer sale is a great opportunity to save on PC games, GameStop's one-day sale is for console gamers, whether you play PS4, Xbox One, or Nintendo Switch. And if you're a GameStop PowerUp Pro rewards member who has games to trade in at one of the retailer's stores, you'll get an extra 10 percent in credit back for each game.
