Get More Done With a Touchscreen Chromebook That Travels Light

Disclosure: Our goal is to feature products and services that we think you'll find interesting and useful. If you purchase them, Entrepreneur may get a small share of the revenue from the sale from our commerce partners.

Stay productive wherever work takes you with a versatile 2-in-1 Chromebook, on sale for $169.99 (MSRP $329.99), that switches seamlessly between laptop and tablet mode, keeps you connected with Wi-Fi 6, and powers through the day on a single charge.

Powered by the MediaTek Kompanio 520 processor and 8GB RAM, it handles multitasking with ease whether you're working in Google Workspace, running web apps, or streaming content.

The 10.5-inch WUXGA touchscreen delivers sharp visuals at 1920×1200 resolution, while the included push-pop stylus charges quickly and stores securely inside the device. Switch between tablet and laptop modes instantly with the detachable full-size keyboard and magnetic stand, making it just as effective for presentations as it is for note-taking.

Connectivity is built for speed and reliability, with Wi-Fi 6 and Bluetooth 5.3 ensuring smooth video calls and fast file transfers. Dual 5MP cameras make it simple to capture documents or join meetings with clear image quality. The Chromebook also includes a USB-C port and 3.5mm audio jack for flexible expansion.

Durability is a core feature — the CM30 meets military-grade MIL-STD 810H standards, and its aluminum chassis incorporates 30% recycled materials. At just 0.61 kg, it’s lightweight enough for daily commuting yet built to handle life on the go. And with up to 12 hours of battery life, you can work through a full day without needing a charge.

As an open-box product, the CM30 comes from excess retail inventory and may show minor packaging wear or store handling marks. It’s verified to be in new condition, repackaged cleanly, and backed by a 1-year warranty.

Upgrade your mobile setup with this open-box ASUS Chromebook CM30 for $169.99 and get touchscreen versatility, stylus support, and all-day productivity in one device.
