Give Presentations Anywhere With This Mini-Projector

This HD pocket projector brings your pitch deck on the road with you.

August 26, 2019 2 min read

Disclosure: Our goal is to feature products and services that we think you'll find interesting and useful. If you purchase them, Entrepreneur may get a small share of the revenue from the sale from our commerce partners.

The best entrepreneurs think on their feet, and they're ready to show their greatest new idea to potential investors or partners wherever they go. But if you've got a concept with legs and you're ready to show it off, you won't always have access to large, presentation-ready screens on the road. The Prima 1080p HD Pocket Projector creates a standalone multimedia experience in any environment, indoors or outdoors.

This bright, cinema-quality projector brings presentations, movies, TV and more to any location. Create a life-size HD display on any wall, then watch your ideas come alive in front of your next business partners. It's four times brighter than other portable projectors, and the 64-bit quad-core processor holds plenty of data.

The Prima 1080p HD Pocket Protector can deliver up to three hours of video playback and 30 hours of audio playback. Its Android system is compatible with the Google Play Store, so you can download apps and stream directly from your Prima. The project also syncs with your laptop, phone, and tablets. You

don’t even need WiFi to access your media – its Bluetooth connectivity lets you link up with your devices absolutely anywhere.

Prima’s 1080p HD Pocket Projector will be your new best friend on the road. It’s marked down to $299.99 from $799 (62 percent off).
