Google AI Mode in Chrome Gets Side-by-Side Browsing via @sejournal, @MattGSouthern

- Google is rolling out updates to AI Mode in Chrome.
- Clicking a link in AI Mode on Chrome desktop now opens the webpage in a side panel.
- The updates are live in the U.S. and will expand to more countries soon.

Google is updating AI Mode in Chrome with side-by-side page viewing and a plus menu for adding tabs, images, and files as context.
