

# Google Reports Search Console Page Indexing Report Delays via @sejournal, @MattGSouthern

Google announces delays in Search Console's Page indexing report. The company confirms crawling, indexing, and ranking remain unaffected by the reporting issue.

- Google is experiencing longer than usual delays in the Page indexing report within Search Console.
- The issue affects reporting only, not actual crawling, indexing, or ranking of websites.
- Google will provide an update when the issue is resolved.
