Data di pubblicazione: 30 maggio 2018

ISBN: 978-92-9491-903-8

Pagine: 402

Prezzo: € 19,78

L’Agenzia dell’Unione Europea per i Diritti Fondamentali (FRA) ha pubblicato il manuale aggiornato sul diritto europeo in materia di protezione dei dati. Il manuale è stato pensato per promuovere la conoscenza delle norme, rivolgendosi in particolare ai professionisti del settore legale non specializzati.

The rapid development of information technology has exacerbated the need for robust personal data protection, the right to which is safeguarded by both European Union (EU) and

Council of Europe (CoE) instruments. Safeguarding this important right entails new and signifi cant challenges as technological advances expand the frontiers of areas such as surveillance, communication interception and data storage.

This handbook is designed to familiarise legal practitioners not specialised in data protection with this emerging area of the law. It provides an overview of the EU's and the CoE'sapplicable legal frameworks.

It also explains key case law, summarising major rulings of both the Court of Justice of the European Union and the European Court of Human Rights. In addition, it presents hypothetical scenarios that serve as practical illustrations of the diverse issues encountered in this ever-evolving field.
