Illustrator Spotlight: Bráulio Amado

A selection of poster designs and album artwork by one of our all-time favs, graphic designer and illustrator Bráulio Amado (previously featured here). The word selection is really doing some heavy lifting here because I included roughly a million images. Born in Portugal and currently based in New York City, Amado has created things for outlets like *The New York Times* and *A24* as well as artists like Andre 3000, Frank Ocean, and Robyn. You can view his entire archive of work here.

Check out more from Bráulio Amado below!
