Jeopardy! and Wheel of Fortune are headed to streaming

Jeopardy! and *Wheel of Fortune* are coming to streaming for the first time. The two game shows will arrive on Hulu and Peacock in September, according to a report from *The New York Times*.

Under the multi-year deal, new episodes of *Jeopardy!* and *Wheel of Fortune* will appear on both streaming services one day after they air on linear TV. The agreement will include older episodes of each show, too.

For decades, *Jeopardy!* and *Wheel of Fortune* have been staples on linear TV, and their expansion to Peacock and Hulu is part of a broader pattern that's bringing key series, like WWE's *Monday Night Raw*, to streaming.
