WMC: Off-The-Grid Design Retreat 2018

WMC: Off-The-Grid is a three-day weekend retreat aimed at graphic designers, small business owners and other design-minded creatives looking to step away from their screens to get advice from our expert faculty. Our attendees will come away with tangible tools and action steps they can use to grow their businesses and become more confident designers.

This intimate event is open to under 60 attendees, speakers, workshop leaders and staff. Located at Mohican State Park in Loudonville, Ohio, the WMC Fest community will come together in small cabins to bond over a campfire and their love for creativity.
