Josephmark Workshop: Pitching Your Tech Talk

6 July 2019
Brisbane

Amazing opportunity in Brisbane from our friends at Josephmark! Pitching Your Tech Talk aims to get sidelined voices into the tech talk space.

Are voices like yours underrepresented or marginalised in tech and design conferences because of your background, age, sexuality, mobility or location? Have you always wanted to become a tech conference speaker? Josephmark are hosting a

workshop on pitching tech talks for new speakers – and best of all, they're doing it for free.

If you're having a tough time cracking pitches for panel discussions, conferences or residencies and would like to workshop your ideas (whether they're raw, or pitch-ready) with industry mentors Kevin Finn, Matthew Haynes, Colleen Morgan and Nicky Watson, register on Eventbrite for a free spot – places are capped at 20 to keep the workshop intimate. Don't sleep on this one.

Spaces are free, so register your interest here ASAP.
