# Manchester Print Fair

11 May 2019
Manchester

The Manchester Print Fair returns to Manchester Cathedral this May after a hugely successful first event last year.

The print fair is a creative market place celebrating the best of printmaking, graphic design and illustration in the North West and beyond. Founded in 2011, the fair offers shopping from local makers, creative workshops and refreshments from independents.

The cathedral is a beautiful space, full of community spirit

and history—dating as far back as 700 AD! The print fair team are delighted to be back at this great space, supported by a fantastic team at the cathedral who are so open to hosting diverse events in the city.

Make sure you get down there, enjoy a cup of coffee and tasty treats, explore historical buildings and take home printed treasures—straight from the artist!

10am—4pm on Saturday 11 May at Manchester Cathedral.

**RSVP to the event and learn more about what's going on.**
