Monigle

Summer 2019 Internship – Design / Internship / Paid
New York NY US

http://www.monigle.com

Just like brands that are always evolving, we challenge the status quo every day. Our ever-growing capabilities mean that we are continually advancing how we help our clients to deliver powerful experiences, create purposeful cultures and tell compelling stories. The net result is hard-working brands that move people.

Role Details

Monigle is seeking top design candidates to work with us this summer. We're a team of passionate designers with a dedication to our craft. We're in the business of building brands—brands that we encounter every day, and we get to do it all here in the beautiful state of Colorado! When we're not doing excellent work for a broad range of clients—both locally and nationally—we're leather tooling skateboards and making fashionable paper dresses for local charities.

If you love design, are passionate about branding, and are looking for a paid internship, we want to hear from you. Send us a note telling us what you're looking for in an internship and why're you're interested in Monigle along with a link to your best work and we'll be in touch.

Job Description

The Design Intern will think like a "design sponge." A positive, vocal, hard-working rising or graduated senior able to bounce from project to project to support designers and are exposed to all aspects of the studio design process. Work includes development of design concepts, design execution,

photo searching, audits, presentation production and all around general support.
