Now Live: Threat Detection and Incident Response Virtual Summit

SecurityWeek's **Threat Detection & Incident Response Summit** is now LIVE and will run **today** from **11AM-4PM ET**.

This fully immersive online event brings together security practitioners from around the world to share war stories on breaches and the murky world of high-end cyberattacks.

Join thousands of attendees as we dive into threat hunting tools and frameworks, and explore value of threat intelligence data in the defender's security stack.

We have a great lineup of sessions and technical demos that you won't want to miss!

Agenda Sessions Include (view full agenda):

- SEARCH Party: Threat Hunting in the Clouds
- Mastering the Cyber Battlefield – Your Guide to ICS/OT Incident Response Preparation
- Fireside Chat With John Hultquist, Chief Analyst, Mandiant
- Deciphering the Unknown: Leveraging Knowns in Cyber Threat Detection
- The Latest in Ransomware (and What to Do About It)
- Cyber Resilience: The New Strategy to Cope with Increased Threats
- Attacker Mindset in the Cloud
- Zero Trust-Based Strategies to Optimize Cyber Threat Defense Across the Attack Chain
- Technical Demonstrations and Full Virtual Expo Hall
