

Only Human: Martin Parr

Through 27 May 2019

London

We at Shillington love Martin Parr—so this major new exhibition of his work at the National Portrait Gallery is a must-see!

This major new exhibition brings together works by one of Britain's best-known and most widely celebrated photographers, Martin Parr. Including recognisable photographs alongside works never before exhibited it will focus on one of his most engaging subjects—people.

The exhibition will include portraits of people from around the world, with a special focus on Parr's wry observations of Britishness, explored through a series of projects that investigate British identity today.
