Own This Extensive Font Library Worth $4265 for Just $29

High-quality fonts can be really expensive and are often the most costly tool a designer needs, so when a massive saving like this comes along it’s hard to let it pass by! This brand new bundle contains 16 hand-picked typefaces, containing hundreds of individual fonts, chosen specifically for their quality and versatility. These fonts are best-sellers at their regular price, but you can pick them up with over $4236 shaved off the price for a limited time. At 99% off, the discount is so high there’s little left on the price tag! This is a great opportunity to give your font library a major upgrade with some world-class typefaces!

This new Modern Designer’s Extensive Font Library contains 16 pro-grade font-families to add to your collection, with extended licensing included in the price. It’s difficult to find a single font with these usage terms for $29, never mind 16 fonts! If your font collection currently consists of free fonts, you’ll be blown away by the quality of these premium typefaces. Forget about missing characters or inconsistent kerning, these fonts are professionally crafted to take your work to a whole new level. You can see why typefaces like these cost so much at their regular price when you consider the multiple weights (the Niva family alone includes 60 individual fonts!) or features like stylistic alternates that cleverly add ligatures and swashes to enhance your typographic designs.

Buy The Extensive Font Library for $29 (~~$4265~~)
