Paintzen is currently seeking a Junior UI/UX Designer who will be responsible for maintaining a program of work to advance the strategies and production of Paintzen’s digital portfolio through technology.

Role Details

Paintzen is currently seeking a Junior UI/UX Designer who will be responsible for maintaining a program of work to advance the strategies and production of Paintzen’s digital portfolio through technology. In this role, you will be supporting the product team on a full range of products and platforms (web, mobile and more). Reporting to a UX Director and a Product Manager on a day to day basis, you’ll be designing interfaces on real-world applications.

Paintzen is a platform for matching home improvement buyers with experienced paint crews, managing all of the logistics of the job to provide both a more stress-free experience. A company within PPG’s architectural coatings business, the industry leader in residential and commercial coatings, we are focused on creating a new kind of e-commerce experience for the lucrative home improvement market by reimagining the way we connect and work with qualified contractors.

We plan to step up the innovative and disruptive quality of the paint industry as we produce for our clients, and create cutting edge content and tools for a data-driven age.

Skill/Attributes Required

Responsibilities:

• Understand end-user needs

• Identify the moments of engagement, or touch-points, between customers, contractors, and the business

• Create low fidelity prototypes demonstrating key product features •Wireframe complex interactions

• Iterate on your design based on feedback from internal reviews and user testing

• Help the team move products from prototypes to production

To be successful in this role, you must have:

• A portfolio demonstrating and articulating an understanding of layout, typography and visual hierarchy

– 2-3 years of design experience

– Ability to think outside the box

• Experience creating interactive prototypes with Axure, Invision, or similar

• Experience designing modern and compelling UI (GUI examples a plus)

• A willingness to learn and grow

Apply/Respond by: 09/04/2018
