Protect Your Business from Cyber Threats with This $80 IT Bundle

Disclosure: Our goal is to feature products and services that we think you'll find interesting and useful. If you purchase them, Entrepreneur may get a small share of the revenue from the sale from our commerce partners.

Even small businesses can be the target of cyber attacks. Roughly 43% of all cyberattacks target small- to mid-size businesses, and 60% of them go out of business within six months. So if you want to create your team that will help protect your business from cyber attacks, education is the first step. The Complete Cyber Security Developer and IT Skills Bundle could help you or your employees train to secure your business against attacks, and it's only $79.99.

This IT training bundle features comprehensive high-quality content with 26 courses covering more than 400 hours of material to teach a tech-savvy team member how to protect your web spaces and identify potential vulnerabilities. All courses are taught by professionals from iCollege — who exclusively partners with ITproTv to bring superior training to the masses — and cover an expansive range of materials. As one verfied buyer said, "It has the most complete Cyber Security training that I have seen."
