Screen Printing Masterclass at Work-Shop

Kitty from Mrs C and Me will host a Screen Printing Masterclass later this month at Work-Shop. Great way to expand your creativity … and get away from your computer!

The class will cover what screen printing actually is, the different types and where to access them, how to print at home and everything you need to know about stencils.

Create a design, cut out a stencil and print it onto a tea towel or tote bag using the fabulous fabric inks provided. You'll leave with all the mad skills, and get information to

be able to continue printing at home.

31 January 2019 in Sydney
