Sunkissed x Font Duo for Access All Areas Members

Access All Areas members have a beautiful pair of fonts to download this week, courtesy of Maryam Kamal Co. Sunkissed x includes an SVG watercolour sans font and a regular script font. The SVG technology of the watercolour font produces realistic texturing that regular fonts can't offer. The stylish textured script was designed to complement the watercolour sans font, but it also looks amazing on its own. Create amazing watercolour type effects without having to paint it yourself!

Maryam Kamal is a twenty-something years young designer with a huge passion for watercolor and fonts! See her growing collection of trendy products in her Font Bundles and Creative Market stores, including expertly designed fonts, illustrated design resources and plenty of watercolor elements. Follow @maryamkamalco on Instagram for regular updates and the occasional giveaway!

Remember that happiness
is a way of travel
not a destination
OF
TRAVEL
NOT A
DESTINATION

Sunkissed x contains a watercolor sans-serif font in SVG Opentype format and the Sunkissed x textured script font in regular Opentype format. The regular script font in the pack is widely supported by most software, whereas the watercolor SVG font requires Photoshop CC 2017 or Illustrator CC 2018 (or newer) to use.
