The Bearded Sailor Tattoo Inspired Font for Premium Members

Access All Areas members have a cool font to download this week, courtesy of LovePowerDesigns. The Bearded Sailor is inspired by old-school tattoos that were popular with sailors. It’s a hand-drawn font with rounded strokes that pairs perfectly with both script and sans-serif fonts. The Bearded Sailor comes in two styles, a solid regular version, and a Shadow variant with stylish gaps beneath the spurs for more of a vintage appearance.
