

The best Black Friday 2023 tech deals you can get

Black Friday is here once again, even though the deluge of early deals has made it feel like the holiday shopping season is perpetually hitting its peak for all of November. Regardless, though, today is the day where you should be able to score the very best deals of the year on all things tech.

Whether you're checking off everyone on your list for the upcoming holidays or you're just shopping for the very best prices for yourself (we don't judge), we're scouring all the quality deals Black Friday has to offer and logging them right here. But keep in mind that our Black Friday and upcoming Cyber Monday coverage goes well beyond this one post. You can find it all right here, and you definitely don't want to miss some of our budget-focused roundups like the best deals under \$50 and under \$100.

Feeling a little overwhelmed on what deals to pounce on? Need some tech buying advice? Our Verge Deals team is here for your retail therapy, and we'll be answering your burning shopping questions for Cyber Monday live on November 27th at 11AM ET. Leave a question here.

Update November 24th, 11:01AM ET: Added additional deals and links to other Black Friday deal roundups.
