The NYPD will police Labor Day parties with surveillance drones

We’re going to be utilizing technology, we’re going to be utilizing drones for this J’ouvert weekend. The drones are going to be responding to non-priority calls and priority calls, for example if we have any 311 calls on our non-emergency line, where if a caller states there is a large crowd, a large party in the backyard, we’re going to be utilizing our assets to go up, go check on the party, to make sure if the call is founded or not, and we’ll be able to determine how many resources we need to send to that location for this weekend. We will have our drone team out there, starting tonight, all the way into Monday morning.
