There are currently 57 million people in the US participating in the gig economy. That’s 36 percent of the workforce! As wages have stagnated across the country while the cost of living has increased, people are finding it more and more necessary to pick up a side hustle to make ends meet. There are many, many side hustles out there but you may not be fully equipped to take all of them on today. If you’re thinking about starting a second gig but need a little boost, these products can help you get on track with some of today’s top side hustles.
