Although Wall Street has been bamboozled recently by meme stocks, investing in the stock market is not just random and subject to the whims of Reddit users. Of course, volatility happens, but professional traders use a range of tools to predict volatility and maximize their returns in the marketplace. For day and short-term traders, technical analysis is essential. If you're interested in playing the stock market more closely, don't do it before you've gone through [The Ultimate Candlestick Trading & Analysis Masterclass Bundle](#).

This five-course bundle is taught by professional day trader Travis Rose (4.4/5 instructor rating), who has made a career out of trading for the last five years. In these courses, he'll teach you the skills he's learned over the years, helping you bypass the pain points and failures of just starting out.

The courses are designed for new traders and investors, and will give you a beginner-friendly introduction to technical analysis. You'll learn how to analyze candlestick charts for stocks, forex, or futures, how to "read the tape", and more. The tape is the top tool used by successful traders, and learning how to understand order flow can give you an edge over other retail investors. You'll also learn how to analyze different chart patterns and get an introduction to using Fibonacci indicators to make trades. Throughout the courses, you'll get quizzes to fortify your learning, as well as ebooks aimed at improving your skills as a trader.

Earn money more sustainably than by betting on Reddit. Right now, The Ultimate Candlestick Trading & Analysis Masterclass Bundle is on sale for just \$29.99.

Prices subject to change.
