

This \$63 App Helps Get Your Mac Working Faster

Disclosure: Our goal is to feature products and services that we think you'll find interesting and useful. If you purchase them, Entrepreneur may get a small share of the revenue from the sale from our commerce partners.

Researchers from Robert Half Technology found that the average worker will lose up to 22 minutes of daily productivity due to technology. If your computer is running slowly, it's hard to keep up with the demands of your role, especially if you're running your own business.

Mac users can give themselves the tools to clean their Mac independently. CleanMyMac X is a top-rated Mac cleanup app that usually that you can get for life right here for 29% off.

This one-time purchase lets you download CleanMyMac X without an expiration date. You'll also get a special price on upgrading to newer versions of CleanMyMax in the future, should you need one.

In the meantime, you can take advantage of this intuitive software to clean out unnecessary files, clear your caches, remove broken downloads, and wipe away old logs and useless localizations. These cluttered files could be slowing down your computer by clogging the hard drive. At the very least, they could be the cause of all those low-storage notifications, but now you may not need to invest in an external hard drive just for your daily computing.
