# Use This Simple Strategy to Make Your Dream a Reality

Don’t be afraid to dream big.

May 2, 2018 2 min read

Opinions expressed by *Entrepreneur* contributors are their own.

In this video, Entrepreneur Network partner Peter Voogd talks about the importance of keeping the concept of your dream somewhere in your mind. Envisioning a life that is your ultimate dream can help chip away at achieving this larger goal. Voogd’s main recommendations include keeping your dreams in mind, understanding that these dreams may take longer than expected and improving your circle of influence.

The concept of thinking large — even if you may not initially believe it — is what Voogd feels is integral to realizing your dream. Even if your inner self does not believe it, Voogd

recommends keeping that dream in the back of your mind, so that you won't forget about it and can focus on it frequently.

As evidence of this method, Voogd tells his story from inside a private jet on its way to Aspen – a set-up he never knew would be his life, but one that he envisioned for himself multiple times. By being intentional about his vision, Voogd recounts, his wildest dreams did eventually come to fruition.
