Video Tutorial: How To Create a Vintage Movie Title Text Effect in Adobe Photoshop

In today’s video tutorial I’ll show you how to create a vintage movie title text effect with the help of Photoshop’s 3D tools. This style of classic film titles is reminiscent of old black and white movies from the 20s, 30s and 40s. Most of the hard work is done by Photoshop’s 3D functionality. Just some configuration of the settings is all that’s required to produce the three-dimensional effects and the chamfered text face, along with low key lighting and shadows.
