Virtual Event Today: Zero Trust Strategies Summit

Join us today for **SecurityWeek's 2023 Zero Trust Strategies Summit** as we decipher the confusing world of zero trust and share war stories on securing an organization by eliminating implicit trust and continuously validating every stage of a digital interaction.

Zero Trust is more than a marketing buzzword. As defenders look to holistic approaches to securing corporate assets, the concept of ZTNA (Zero Trust Network Access) takes on added importance to help simplify and strengthen access controls for all users, devices and data.

When: April 12, 2023 | 11AM – 4PM ET

Where: SecurityWeek's Virtual Conference Center

Featured sessions and topics on the agenda include:

- How to Create a Multi-Layered Approach to Cybersecurity
- Zero Trust – Beyond the Buzzwords
- Tech Session: The Supply Chain of Problems: SBOM, N-Days and Zero Trust
- Panel: CISOs Share Lessons on Implementing ZT Principles
- Fireside Chat: The History and Evolution of Zero Trust
- Identity Powered Zero Trust
- Take 30 with a Techie: Cloud Backup
- Deploying Passwordless Authentication with Okta
- Tanium and Azure Active Directory Integration: Unlock Zero Trust at Scale
