Xbox’s new era needs games like Forza Horizon 6

It’s a weird time at Xbox. Microsoft’s gaming division is under new management, with its current leadership intent on what it describes as “a renewed commitment to Xbox.” But given that no one really knows what an Xbox is at this point, that could mean many things. What Xbox needs is a game to signal to players what the brand is really about, and what it is actually committing to. What Xbox needs is more games like *Forza Horizon 6*, which is coming at exactly the right time.

The open-world racing game launches next month, but I recently had the chance to play a preview version to get a sense of what to expect. Even with just a brief taste of …
